## GROWTH OF THE MSME SECTOR

There are over 6000 products ranging from traditional to high-tech items,

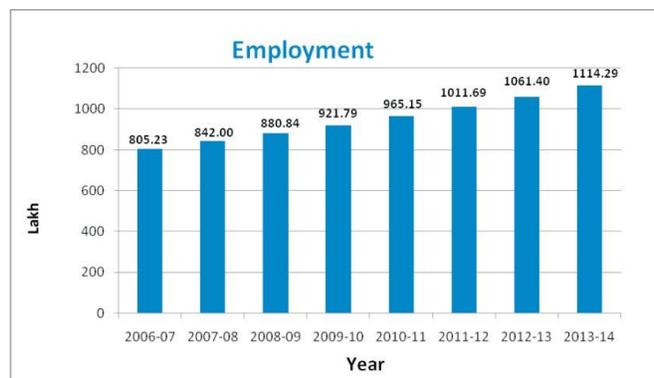

which are being manufactured by the MSME Sector in addition to provide wide range of services. The leading industries with their respective shares are as depicted below:

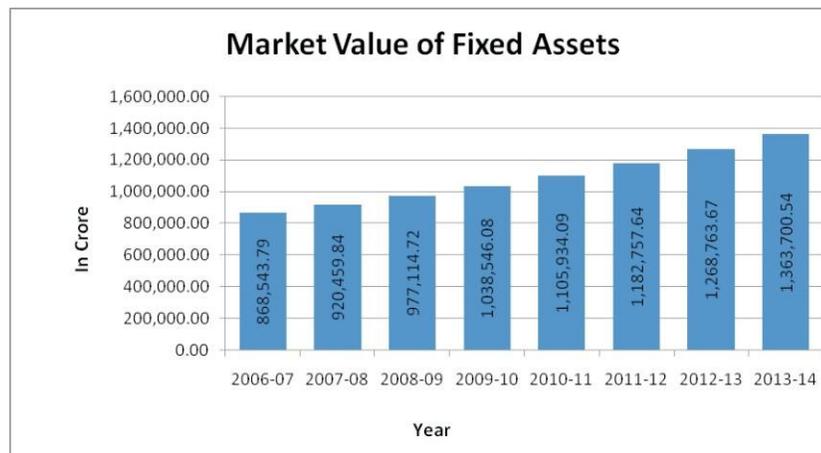

**A. NUMBER OF ENTERPRISES IN MSME SECTOR.**

**B. EMPLOYMENT IN MSME SECTOR**

**C. FIXED INVESTMENT IN MSME SECTOR**

## GROWTH OF MSMES SECTOR

The Fourth All India Census of MSME 2006-07 evaluated the measure of MSME segment

### POTENTIALS IN MSME'S

India's economic growth has been led by the services sector in the last decade, particularly owing to the growth in information technology (IT) and business process outsourcing (BPO) industries. The manufacturing sector's importance has grown in the recent years with the advancement in its output. The sector offers huge potential for employment creation. Moreover, the importance of Micro, Small and Medium Enterprises (MSMEs) in the growth process is considered to be a key engine of economic growth in India.

### **THE PROSPECTUSES OF THIS SECTOR ARE AS UNDER-**

- Employment generation sector
- Minimization of regional imbalance
- Contribution in Indian's total export
- Attraction to the foreign investment
- Big platform for small and medium enterprises
- Growing sector for Indian Industries

## PROBLEMS OF MSMES IN INDIA

Despite of the importance of the MSMEs in Indian economic growth, the sector is facing some major challenges are as under:

- Lack of adequate capital
- Non-availability of suitable technology
- Low production capacity
- Unavailability of skilled labour
- Poor infrastructure
- Lack of sufficient warehouse
- Regulatory constraints and facilitation

To obviate these problems, the Ministry of Micro, Small and Medium Enterprises (MSME) is implementing a number of Schemes & Programmes like Credit Guarantee Scheme, Credit Linked Capital Subsidy Scheme, Cluster Development Programme and National Manufacturing Competitiveness Programme etc. Furthermore, the Ministry has been interacting with various concerned Ministries/Departments/State Governments/Banks and other stake-holders to streamline the mechanism for grant of loans, simplify labour laws and other procedures to facilitate the growth of MSME units.

## THE FOLLOWING SUGGESTIONS FOR THE GROWTH AND DEVELOPMENT OF THE MSMES IN INDIA

- Mutual Supply of Technologies:
- Constitution of a Panel of Consultants
- Determination of Technological Needs
- Training and development, awareness programs
- Sufficient availability of the credit
- Relaxation in labor laws and red tape
- Proper research and development

## CONCLUSION

Small and medium ventures are the foundation of Industrial improvement. It is critical for both created and creating nation that little and medium ventures constantly spoke to the model of financial advancement which accentuated high commitment to household generation, huge fare profit, low speculation necessities, business era, viable commitment to outside trade winning of the country with low import-serious operations. It is likewise obvious that MSMEs has performed exceedingly well and empowered our nation to accomplish a wide measure of mechanical development and advancement. In perspective of the above issues of MSMEs, the time has come to put accentuation on plan of benevolent strategies, good working environment, and change of appropriate infra-structure, organizing legitimate fund offices, effective administrative capacities and orchestrating reasonable present day innovation. In the event that administration starts and arrangements towards MSMEs are nearer towards its different issues and prospect it can be closer givers with horticulture in all regard in future.

In India MSMEs has accomplished relentless development in the course of the last couple of years. The part of MSMEs in the mechanical segment is developing quickly and they have turned into a pushed range for future development. The Indian market is developing and the Indian business is gaining quick ground in different Industries like assembling,

nourishment handling, material and articles of clothing, retail, accuracy designing, data innovation, pharmaceuticals, agro and benefit divisions and so on. Under the changing financial situation the MSMEs have both the open doors and difficulties before them.
